Creating an effective dashboard involves thoughtful design to ensure that the presented information is clear, relevant, and easily understandable for the intended audience. Here are some key principles and best practices for dashboard design

**Activity 1: Interactive and visually appealing dashboards**

Creating interactive and visually appealing dashboards involves a combination of thoughtful design, effective use of visual elements, and the incorporation of interactive features. Here are some tips to help you design dashboards that are both visually appealing and engaging for users so take care of below points

- Clear and Intuitive Layout
- Use Appropriate Visualizations
- Colour and Theming
- Interactive Filters and Slicers
- Drill-Down Capabilities
- Responsive Design
- Custom Visuals and Icons
- Use of Infographics

**Major outcomes from the dashboard:**

- **Dataset Overview:** The dashboard covers 27,468 weekly records for 84 countries in 7 regions, from January 2020 to April 2026, with petrol, diesel and LPG prices, tax percentage and subsidy level.
- **Tax Differences by Region:** Oceania has the highest average fuel tax at 38.7%, followed by Europe at 34.6%. South America is lowest at 18.2%.
- **Subsidies Keep Prices Low:** Average fuel price is about $3.09 per liter where subsidy is low, against $0.63 at high subsidy and $0.13 at very high subsidy.
- **Diesel Trend and Risk:** Average diesel price rose from $1.39 per liter in 2020 to $2.47 in 2026. The Middle East shows the highest price volatility (about 1.2) and Oceania the lowest.
- **Most and Least Expensive Markets:** Hong Kong has the highest average diesel price ($5.10 per liter) and Venezuela the lowest ($0.02).
- **Income Level Matters:** High-income countries have the highest average tax (34.7%) and petrol price ($3.55 per liter), and 87.5% of their records have low subsidy.
